**RE: Requesting information about the Dixon Unified School Bonds**

On Thu, Jul 19, 2018 at 11:58 AM, Padilla-Scholtens, Simona J.<SJPadilla@SolanoCounty.com> wrote:

Here are the percentages for each bond measure based on the debt service payment we used to calculate the 17/18 tax rate...

Dixon USD Measure J 2002 Election=46%

Dixon USD Measure Q 2016 Election=54%

Therefore, based on the percentages above, the \$92.243 per \$100k of assessed values for the respective Measure is as follows:

Measure J 2002      \$42.43

Measure Q 2016    \$49.81

Thanks

Subject: RE: Requesting information about the Dixon Unified School Bonds

Good afternoon Simona,

I tried to get the tax rate in the form of dollars per 100k of assessed valuation by election for Dixon Unified School District Measure J and Measure Q . I was told by Ms Zarco that your calculations have been combined.

My tax bill shows \$92.243 per \$100k of assessed valuation. I would like to know this factor broken out by election.

Thank you,

Ourania
